2           State, a political subdivision or agency of a State, an  
3           Indian tribal government, or a person, firm, or orga-  
4           nization requests access to a right-of-way owned by  
5           the Federal Government, or an instrumentality  
6           thereof, in order to place, construct, modify, or oper-  
7           ate facilities for the provision of broadband service,  
8           the Executive agency having control of the right-of-  
9           way may grant to the applicant, on behalf of the  
10          Federal Government, a license of occupancy author-  
11          izing the deployment of all equipment required to  
12          deploy broadband service.

13          (2) DURATION.— A license of occupancy issued  
14          under this subsection shall be issued with a duration

2           cial, private or multiple use properties shall  
3           not be used for the purpose of determining  
4           comparable valuations); and

5                   (ii) the size of the portion of land re-

10          fee established under this paragraph may be ad-  
11          justed, not more frequently than once every 6  
12          years, to reflect the current valuations upon re-  
13          newal of such license.

14          (4) RULE OF CONSTRUCTION.—Nothing in this  
15          subsection shall be construed to exempt an Execu-
